Collection 190 Textbooks Collection

Contents as of January 2022

Contents

The Textbooks Collection contains publications that were written to be used in a classroom setting. Some of the textbooks may have been used in Trenton Schools, or belonged to Trenton residents. Some books were published in Trenton, while others were written by Trenton scholars. A few of these books had been in the Library's circulating collection at some point and have the usual library markings.

The collection is housed in two flat boxes.
